Getting Started with Google Apps

NEWCASTLE – FRIDAY 5 JUNE 2015

WORKSHOP DETAILS

Google Apps for Education provides a mature, web-based suite of apps to support learning and collaboration in the classroom – on any device.

Getting Started with Google Apps is a one day workshop that equips teachers, school executive and IT staff to explore the collaboration, flexibility and ease of use provided with the Google Apps.

This hands on workshop will cover:

- login to your school Google account
- using Docs, Sheets, Slides and Sites apps
- exploring Google Classroom and the Chrome Web Store
- learn how to manage your files in Google Drive
- sharing of documents and sites with staff and students
- Gmail and Google Calendar
- the best way to use Google Apps on mobile devices such as iPads.

We will also explore the benefits of setting up Google Apps on your own school domain and discuss the practicalities involved.

Come and learn how Google Apps fits in your school's learning strategy.

This workshop is a great step towards getting certified as a Google Educator.
